REVIEW OF NOVEMBER—COMMERCIAL AND FINANCIAL EVENTS.

The overshadowing event during November was of course the Presidential election, with the overwhelming triumph of Herbert Hoover and the Republican Party. While the wagers on the result of the election as far as the Presidency is concerned, with the odds so strongly in favor of the Republican candidate, had clearly pointed to the success of Mr. Hoover, yet considerable doubt as to the outcome was felt by the great majority of the people, especially in view of the conceded popularity of the Democratic candidate, Gov. Alfred E. Smith of New York, and hence the magnitude of the Republican victory came very much in the nature of a surprise. Both in the electoral vote and in the popular vote Mr. Hoover gained a crushing majority. He carried 40 States, with an electoral vote of 444, leaving only eight States with 87 electoral votes for Governor Smith.

Mr. Smith not only lost his own State, but failed to hold in line the block of Southern States, commonly called the solid South, which had been a Democratic stand-by in every Presidential election since the Civil War. As a matter of fact, the only Southern States which gave their electoral votes to Mr. Smith were Alabama, Arkansas, Georgia, Louisiana, Mississippi and South Carolina, besides which he obtained the electoral vote of two Northern States, namely, Massachusetts and Rhode Island, the latter, however, by only insignificant pluralities. The Republican candidate captured such Democratic strongholds as North Carolina, Virginia, Tennessee, Kentucky, and even Texas (which hardly anyone had thought of as a possibility), and Florida. The breaking up of the solid South is looked upon as particularly significant and to be pregnant with important possibilities for the future. Many different causes seem to have combined to influence the electorate in these States to vote against Mr. Smith, more particularly Mr. Smith's stand on the liquor question, his leaning towards a protective tariff, his identification and association with Tammany Hall and last, but not least, the matter of his religion, he being an active member of the Catholic Church. But it is felt that these rock-ribbed Southern States, having once strayed away from the Democratic fold, can be induced in the future to show similar independence and decide political issues on their merits, instead of being governed entirely by considerations bearing upon the negro race question which has for so many years been the one influence in holding the Southern States together politically in a solid block.

On the popular vote throughout the country, Mr. Hoover seems to have obtained a plurality of some 6,000,000 votes, having received roughly 21,000,000 votes against 15,000,000 cast for Governor Smith. In New York State the plurality against the Democratic candidate was not large, considering the magnitude of the vote—in fact the vote as between the two candidates was pretty nearly evenly divided, 2,184,303 ballots having been cast for Mr. Hoover as against 2,089,779 for Governor Smith, but the latters' defeat in this State was especialy signal, inasmuch as nearly all the Democratic candidates on the State ticket came out of the contest victorious—Franklin D. Roosevelt having defeated Attorney-General Albert Ottinger for Governor, Colonel Herbert H. Lehman, Democrat, having defeated Charles C. Lockwood for Lieutenant Governor, and Royal S. Copeland, Democrat, having been re-elected as U. S. Senator over Alanson B. Houghton, his Republican opponent. Governor Smith's defeat in this State seems to have been accomplished right here in New York City. The Democrats had counted on a plurality in the Greater New York of 500,000 to offset the majority which the rest of the State was certain to give his Republican opponent. Actually, however, the Governor fell considerably short of this, he receiving 1,167,906 votes as against 714,104 cast for Mr. Hoover. The Republican victory throughout the country was not confined to the Presidency. It extended to the two Houses of Congress. Whereas in the U. S. Senate now the two political parties are pretty nearly evenly divided, after March 4 1929, the Republicans will have a majority of about 14. In the House of Representatives the Republicans in the new Congress will have a majority of nearly 100 compared with a majority of 39 in the House whose life expires on March 4. The Hoover Administration will hence have a clear field for carrying out the policies of the Republican party.

Immediately after election Mr. Hoover made known his purpose to make a "good-will" trip to South America and other Latin American countries. Mr. Hoover took this step with the cordial co-operation and approval of President Coolidge. In his proposed itinerary Mr. Hoover had originally included simply Peru, Chili, Argentina, Uruguay and Brazil, but invitations came in from so many other countries to include them also in his visit that Mr. Hoover found it necessary greatly to extend the proposed tour. He started from California on Nov. 19 and made his first stop at Amapala, Honduras, on Nov. 26, and his second at La Union, Salvador, the same day, and then visited in succession Corinto, Nicaragua, Nov. 27; San Jose, Costa Rica, Nov. 28; Guayaquil, Ecuador, Dec. 1, and Callao and Lima (Peru) on Dec. 5. It was announced at Washington on Nov. 22 that Mr. Hoover's itinerary from Valparaiso Dec. 7, up to Dec. 15, had been arranged as follows: Arrive at Valparaiso Dec. 7, depart same day; arrive at Santiago

Dec. 7; arrive Los Andes, Chile, Dec. 8, depart Dec. 9; arrive Buenos Aires, Argentina, Dec. 10, depart Dec. 11; arrive Montevideo, Uruguay, Dec. 12, depart same day; arrive Rio de Janeiro, Brazil, Dec. 15.

Everywhere along the route he was received with the greatest enthusiasm by the populace and the governing officials alike, and it quickly became apparent that Mr. Hoover had given birth to a happy idea when he devised the tour and that the trip would play a prominent part in cementing the good relations between this country and all the different countries to the South of the United States.

While the unbounded success of the Republican Party at the elections had the effect of further promoting and extending Stock Exchange speculation, which even before the election had been proceeding on a gigantic scale, but now attained perfectly amazing dimensions, the slogan used being the very appealing one, "Four years more of prosperity," as narrated in a subsequent portion of this review under a separate heading, the response of the industrial and business world was quite temperate and subdued, as was to be expected. There was satisfaction of course over the result, but little or no evidence of special enthusiasm. The general attitude was that business had been good all through 1928, while the election contest was pending, and there was now no reason why it should not continue to be good. In the meantime, the period for the taking of inventory at the end of the year was approaching, when the merchant and the business man are unwilling to be found holding undue accumulations of unsold goods and wares, and accordingly, it was not wise to entertain extravagant ideas of what the future might hold in store. In a word, no change of consequence occurred in the course of industrial and mercantile affairs. In certain directions there was a slight let-up in activities, as is usual towards the end of the year, in other directions there was increased activity, particularly in the lines of goods catering to the holiday trade. Unseasonably mild weather most of the month, though with occasional cold spells of limited duration tended to enjoin caution.

The condition of the iron and steel industry was typical of the state of the industries where a slackening of activity is usual at the end of the year. In its issue of Nov. 8 the "Iron Age" of this city in reviewing market conditions, and which was probably written before the election, observed that "with prices still swinging upward, the pig iron market showed vitality suggestive of boom conditions." It added that the finished steel market was also strong, with an advance of $2 to $3 a ton on sheets an early probability, though mill back logs continued to taper, following exceptionally heavy shipments in October. Unfilled tonnage, however, had been reduced so little that production was not materially affected, and fresh demands springing up from the railroads and other sources were of promising size. The one index that seemed to point to a less active market situation was scrap. Heavy melting steel at Pittsburgh had declined 25c. a ton for the second time in two weeks, and at Philadelphia had dropped 50c. a ton. In its issue of Nov. 15 the same authority noted that steel production, although still heavy, had receded from the record-breaking rate of October. The reduced raw material needs of steel works had tended to relieve the tension in the pig iron market, notably in the Valleys, and had been reflected in another decline in heavy melting scrap at Pittsburgh. Pig iron prices in territories where surplus stocks of steel company blast furnaces were not an important market factor, continued to gain in strength. Advances of 50c. a ton had been made by producers in Buffalo, eastern Pennsylvania, southern Ohio, and Michigan. Steel prices, likewise, remained buoyant. Several independent mills had announced increases of $2 a ton on sheets and $1 a ton on sheet bars—advances which were likely to win general adoption. Bars, plates and shapes were expected to be marked up to 2c. Pittsburgh, or $1 to $2 a ton above current prices. However, with consumers well covered on their requirements through the rest of the year, the new quotations would apply principally to contracts for the first quarter of the new year.

In its issue of Nov. 22, the "Age" remarked that steel output had shown a further decline, but the recession in specifications had been checked and a buying movement for the first quarter of 1929 was getting under way. Finished steel prices for the most part remained buoyant as evidenced by advances during the week of $2 a ton on tin plate and tin mill black plate. In pig iron, also, sustained market activity was indicated in most districts. In the Central West, forward contracting was extending into the second quarter of 1929, and at Birmingham prices had gone up 25c. a ton. Scrap was again notable for its contrary trend. Heavy melting scrap at Pittsburgh had declined to $17 a ton, or $1 below the level of four weeks before. Steel ingot production in the Greater Pittsburgh district now averaged 80% compared with 85% the previous week and with 90% a little further back. At Chicago output had declined to 82%, largely as a result of the annual overhauling of rail mills. The rate of steel ingot output for the U. S. Steel Corporation subsidiaries had been 80% of capacity for the second week, against 85% the previous week and a somewhat higher figure in earlier weeks. In its issue of Nov. 29 the "Age" remarked that steel prices were easier, but the decline in production had been checked. With the general trend of specifications downward as the year-end approached, releases by the automobile industry continued to act as an offsetting influence. Construction work and railroad cars were also taking more steel. Among the primary materials, pig iron still showed strength in the Central West and South, but was less buoyant in the East. Heavy melting scrap at Pittsburgh, after declining for four consecutive weeks, had undergone no further change, and a somewhat steadier price situation obtained in other market centers. Prompt furnace coke at Connellsville had receded 10c. a ton and was now 15c. below the peak reached in the middle of October. Steel bar prices reflected a marked change in the condition of mill back logs. Buyers were no longer finding it necessary to pay premiums for early shipments, the market was again quotable at 1.90c. to 2c., Pittsburgh, compared with 1.95c. to 2c. when the advantage was with the mills. The possibility of an advance for the first quarter had also passed, with the opening of books by two producers at the same prices that ruled on current contracts. Cold finished bar prices likewise had been continued for the next quarter, and similar action was expected on plates and structural shapes. Large buyers of hot-rolled strip had succeeded in placing first quarter contracts at concessions of $2 a ton. This product, however, under the new bases and extras recently announced, had been advanced $3 to $5 a ton over current invoice prices. In contrast, sheet prices for first quarter had held firm in contracts placed thus far, although mills continued to make sales for immediate specification at $2 a ton less. Territorially, also, a mixed situation was indicated, with an advance of $2 a ton on plates, shapes and bars reported from Birmingham. Steel output, it was noted, showed litle change. The rate for the Greater Pittsburgh district remained at 80%, while Chicago continued on an 82% basis. The average for the Steel Corporation subsidiaries had risen to about 82% compared with the previous recent rate of 80%. The "Iron Age" made the composite price of pig iron Nov. 27 $18.59 per gross ton, against $18.25 a month previously, and the composite price of finished steel 2.362c. a lb. against 2.369 a month previously. It remains to be said that the output of steel ingots in October in the United States was estimated at 4,647,891 tons, the largest

figure reached for any month in the history of the steel industry and comparing with only 3,316,292 tons in October, 1927—from which an idea can be gained of the degree of activity that had been attained in the steel industry.

In the non-ferrous metals, conditions also remained favorable, except that in the case of lead, prices dropped to a lower level, the quotation at New York being marked down on Nov. 10 from 6.50c. to 6.35c. Tin prices, on the other hand, appear to have reached the end of their long decline and the price at New York touched 52⅞c. Nov. 27 and was 53c. Nov. 30, against 49⅝c. Oct. 31. Copper prices were firmly held throughout the month at 16⅛c. for Lake copper and 15¾c. for electrolytic copper at New York. In the petroleum industry the principal feature was the strength in crude oil. On Nov. 9 Pennsylvania crude was advanced 15c. a barrel, making the sixth price increase in 1928 and putting the market on the average 80c. a barrel over the quotations in effect Jan. 1. The gasoline markets developed signs of softness in different parts of the country. U. S. Motor gasoline at Chicago was reduced several times, bringing the price down to 8¾c. per gallon, against 9¼c. at the beginning of the month. On Nov. 1 the Standard Oil Co. of New Jersey reduced tank car gasoline at Bayonne, Baltimore and Parkersburgh, West Virginia, ¼c., to 11c. On Nov. 12 the Atlantic Refining Co. reduced gasoline 1c. a gallon in Pennsylvania and Delaware, to 16c. tank wagon and 18c. service station. On Nov. 17 the Atlantic Refining Co. and the Gulf Refining Co. reduced gasoline station prices in New England 2c. per gallon, to 18c. a gallon. On the same day the Jenney Manufacturing Co. reduced service station gasoline prices in Boston 1c. per gallon. On Nov. 21 Standard Oil Co. of New Jersey and American Oil Co. reduced service station gasoline in Washington, D. C., 1c. per gallon to 21c. On Nov. 27 the Standard Oil Co. of Louisiana announced reductions of 2c. a gallon in gasoline tank wagon and service station quotations throughout its territory in Louisiana, Arkansas and Tennessee, with the exception of Shreveport, where the reduction was only 1c. per gallon. All concessions and discounts formerly offered were withdrawn. On Nov. 19 the Standard Oil Co. of New York reduced its schedule of prices 1c. per gallon throughout New England, including Connecticut. The Standard Oil Co. of Ohio on Nov. 13 announced a new schedule of prices for gasoline, effective Nov. 15, by which no discounts will be given on coupon books or at service stations. Dealers will be allowed a discount of 3c. a gallon from tank wagons, with other customers given 1c. a gallon off. The Standard Oil Co. of New Jersey also announced, effective Nov. 21, that it would discontinue giving discounts from its tank wagon price throughout its territory. A true tank wagon price of 15c. per gallon was established, plus the tax in each State. The service station price would be, it was stated, 3c. a gallon above the tank wagon schedule.

In the textile trades some recovery in the cotton goods division developed. The recovery was aided by the strength in the price of the raw material. Spot cotton here in New York, after some weakness the early part of November, rapidly advanced the latter part of the month. From 19.50c. Nov. 1 the spot price dropped to 19c. Dec. 7 and then rose to 21c. Nov. 26, with the quotation Nov. 30 20.65c. There was a two-fold reason for the rise. In the first place the Census figures of consumption for the month of October, issued on Nov. 14, proved a surprise in showing not only a large increase over the months immediately preceding, when consumption had been on a heavily reduced scale, but also proved somewhat larger than in the corresponding month of the previous year. The Census reported the quantity consumed by the mills of the United States in October 1928 at 618,788 bales of lint cotton and 76,093 bales of linters compared with 492,221 bales of lint and 68,562 bales of linters in September 1928, and with 613,520 bales of lint and 75,330 bales of linters in October 1927. A second reason for the rise in the price of raw cotton was found in the ginnng returns of the Census. The Agricultural Department at Washington on Nov. 8 issued another estimate of the probable size of the 1928 crop based on returns brought down to Nov. 1. It put the prospective yield at 14,133,000 bales of 500 lbs. each, or 140,000 bales larger than its estimate the previous month. But the trade got the notion that the ginning reports pointed to a smaller total and acted on that theory. The Census figures showed 10,160,997 bales ginned up to Nov. 1 1928 against 9,920,846 bales ginned up to the same date in 1927 and 11,253,873 bales in 1926. A later return gave figures up to November 14 and made the total ginned up to that date in 1928 11,320,302 bales, against 10,894,912 bales up to Nov. 14 1927 and 12,956,444 bales in 1926. On analysis of the figures for the different States it appeared to many that the amount still to be ginned in several of the States in order to reach the estimate for those States by the Agricultural Bureau, would not be realized. Print cloths at Fall River for 28 in. 64 x 60's were marked down Nov. 16 from 6⅜c. to 6¼c., but some of the finer construction of print cloths were higher the latter part of the month on a quite satisfactory volume of sales. Rhode Island mills announced wage reduction of 5% declared to be necessary in order to equalize wage schedules with those prevailing in other New England textile centers. The reduction became effective Dec. 3 and there was some talk of a possible strike but the great majority of the operatives accepted the schedule and remained at work.

The silk market was more active, but raw silk prices again declined, at least for 13-15 deniers, which for the double extra grade declined from $5.15 to $5.02½. In 20-22 deniers, no change occurred in any of the grades, Japanese crack double extra remaining at $5.05. The termination of the Stevenson rubber restrictions on Nov. 1 seemed to make no great change in the rubber market, though prices weakened somewhat the latter part of the month, and ribbed smoked sheets for spot delivery in the New York market were 17⅝c. bid and 17⅞c. asked Nov. 30 against 18½c. bid and 18¾c. asked Oct. 30; 18⅛ bid and 18⅜c. asked Sept. 29; 18¾@18⅞ Aug. 31; 19⅛@19¼ July 31; 18¾@19c. June 30; 19½@19¾ May 31; 17@17½ April 30; 27@27¼ March 31 and 41¼@41½ at the beginning of the year.

In the grain markets wheat prices showed comparatively little change during November though being somewhat lower at the close, but corn and oats registered improvement. The Department of Agriculture in its report issued on Nov. 9, based on returns up to Nov. 1, reduced its estimate of the size of the current corn crop, making it 2,895,449,000 bushels against 2,903,000,000 bushels a month earlier and emparing with 2,773,708,000 bushels, the crop of the previous year. The December option for wheat in Chicago was $1.14¼@$1.14¾ Nov. 30 against $1.16@$1.17⅝ Nov. 1. The March wheat option in Chicago was $1.19⅝@$1.20 Nov. 30 against $1.20⅞@$1.22⅝ Nov. 1. The December option for corn in Chicago after dropping to 81⅝c. Nov. 7, was up to 87½c. Nov. 21, but closed Nov. 30 at 84⅛c. against an opening price Nov. 1 of 82½c. March corn in Chicago, as against 84½c. Nov. 7, sold at 89⅜c. Nov. 21, and closed Nov. 30 at 87⅛c. December oats at Chicago closed at 47c. Nov. 30 against the opening price of 43⅜c. Nov. 1 and the March option closed at 47⅝c. against the opening price of 44⅜c. The sugar market improved somewhat. Cuban raw sugar after selling down to 2c. (from 2 1/32c.) at the beginning of the month, advanced to 2⅛c. The wholesale price of refined sugar at New York by the leading refineries ranged between 5.25c. and 5.30c. at the

end of November, against a uniform price of 5.10c. at the close of October. Coffee prices developed firmness again; No. 7 Rio for spot delivery Nov. 30 was quoted at 18¼c., against 17½c. bid and 17¾c. asked on Oct. 31.

NEW SECURITY ISSUES AND DIVIDENDS IN NOVEMBER.

THE STOCK MARKET DURING NOVEMBER 1928.

The course of the stock market during this month will always remain one of the most notable in Stock Exchange history. For unbridled speculation, with unbounded advances in prices, and the overwhelming magnitude of the volume of trading, nothing even remotely like it has ever previously been witnessed. Speculation may be said to have literally run riot. The whole country appeared to be seized with the notion that huge profits were to be made by gambling in stocks and to have developed an uncontrollable desire to acquire a larger or smaller block of

them, without regard to the cost. As a result, orders poured in on the Exchange in a veritable deluge and prices leaped upward in a perfectly amazing way. The new upward swing was all the more remarkable in view of the long continued and enormous antecedent rise in prices extending over a period of several years during which stock prices (barring two or three severe dips when the market became top heavy for the time being) moved upward almost uninterruptedly and at a dazzling pace. Past achievement in this respect now paled into insignificance, and all previous records, no matter how striking, were outdistanced, so as to appear trivial by comparison.

The new speculative outburst was based entirely on the outcome of the Presidential election which occurred on Tuesday, Nov. 6, and resulted in the great triumph of Herbert Hoover, the Republican candidate, besides continuing the Republican Party in power with increased majorities in both Houses of the National Congress at Washington. As the eight years' control of the National Government under Presidents Harding and Coolidge had been marked by great activity in trade and industry, the slogan now became "Four years more of prosperity." Very naturally this was a fetching cry, appealing to the imagination of the entire population of the United States, and found response as well in foreign countries, very extensive orders to buy stocks coming from Europe to supplement the unparalleled volume of orders on domestic account. The effectiveness of the prosperity plea is easy to understand, and yet the fact that it should have come to play such a prominent part in stimulating speculation anew came very much as a surprise, inasmuch as during the whole of the Presidential campaign, in the summer months and the autumn, not the slightest manifestation of concern had appeared lest the country might suffer even if Mr. Hoover's Democratic opponent, Governor Alfred E. Smith of New York, should beat Mr. Hoover and become President after the 4th of next March. The stock market moved steadily higher during all this time, apparently indifferent as to what the outcome of the contest for the Presidency might be, although it appeared quite among the possibilities that Mr. Smith, by reason of his personal popularity, might prove the victor. To the trading and professional element on the Stock Exchange the actual course of the market after the election proved perhaps most surprising of all. They had counted upon a sharp reaction after a brisk rise following the news of the election results. They entertained the theory that those who had been engaged in manipulating prices to higher levels in the period before the election would take occasion to dispose of their holdings if a great speculative outburst should occur, when the result became known. That is precisely what happened. Prices did continue to climb and at a greatly accelerated pace and those who had acquired large lines of stock before election did utilize the occasion for marketing their holdings. Reams of stocks were thrown upon the market, but it had now gained such momentum that the selling was without effect. The profit taking sales were absorbed by a new crop of speculators with such an insatiable appetite for share certificates that the demand remained as keen as before.

From beginning to end of the month, the market may be said to have continued its upward course, with only occasional halts in the nature of pauses to take breath. On Thursday, Nov. 1, the tone was extremely confident and the trend was upward. On Friday, Nov. 2, the market retained its firm undertone notwithstanding considerable pre-election selling by those who did not care to remain long of stock pending the outcome of the election and notwithstanding that some demonstrations against the market were made by bearish operators based on the further tremendous expansion in brokers' loans shown in the Federal Reserve statement issued the previous evning. At the half-day session on Saturday, Nov. 3, the market showed growing strength with general advances in prices and it continued to display the same characteristic on Monday, Nov. 5, the day before election. But all this was as nothing compared with what was to come the day after election. The past was now to be completely thrown into the shade. The pace became fast and furious and the upward bound of prices sensational and spectacular in the extreme. The market was deluged with orders from all parts of the country and everybody appeared avid to buy. In many cases the orders were without limit as to price. No one seemed to care what the cost was, so long as he got a block of stock. The prevailing spirit was well illustrated in an order which one broker received to buy 100 shares of stock and when the broker asked for the name of the stock was told to buy 100 shares of anything, since the whole list was sure to go up and net the purchaser a profit, as this speculator expressed it. So pronounced was the buying fervor that the opening prices on Wednesday, Nov. 7, in the case of the speculative market leaders showed tremendous advances as compared with the closing prices on Monday, Nov. 5. As a few illustrations, General Motors opened at 224½ against the close on Monday of 221¾; Woolworth opened at 217 against 215¼; Curtiss Aeroplane & Motor at 144¾ against 134¾; Radio Corporation of America at 237 against 234; Kennecott Copper at 130 against 128; U. S. Steel at 163½ against 162½; Standard Oil of New Jersey at 52½ against 50; Anaconda Copper at 90⅞ against 89⅞; Timken Roller Bearing at 149¼ against 145, &c., &c.

The craze continued on the immediately succeeding days, prices moving higher and still higher. The facilities of the Stock Exchange proved utterly inadequate to cope with the immense volume of business that kept pouring in. The ticker on Wednesday, Nov. 7, was at one time 47 minutes behind in recording the dealings on the floor of the Exchange; on Thursday, Nov. 8, it at one time was 63 minutes behind and again on Friday, Nov. 9, was 46 minutes behind. The dealings kept growing in magnitude day by day, mounting as never before. On Nov. 7 they totaled 4,894,670 shares; on Nov. 8 they were 5,037,330 shares, the largest day's business on record (up to that time) with one exception, this exception having been the previous June 12 when the sales footed up 5,052,790 shares. On Friday, Nov. 9, the sales were again close to the 5,000,000 share mark, being 4,947,400 shares. But these records were quickly surpassed. The rest of the month 5,000,000 share days became a mere commonplace. At the half-day session on Saturday, Nov. 10, the transactions for the first time in Stock Exchange annals reached the 3,000,000 share mark for any Saturday half-day business; they aggregated, in fact, 3,260,000 shares. The following Saturday, Nov. 17, they were nearly as large, footing up 3,105,216 shares; on Saturday, Nov. 24, the Exchange was closed to enable Stock Exchange houses to cope effectively with the clerical work which the unprecedented volume of business entailed. As to the full-day record, a new high total (up to that time) was reached on Monday, Nov. 12, when the sales were 5,745,560 shares. On Nov. 13 the sales were 5,404,260 shares; on Nov. 14 5,377,995 shares; on Nov. 15 4,786,380 shares. Then there came a bound to a new peak, surpassing by a huge margin every previous record, the total Nov. 16 shooting up to 6,733,500 shares. Even this, however, was again quickly to be exceeded; 6,000,000 share days were now to become the order. On the following Monday, Nov. 19, transactions totaled only 5,040,750 shares; but on Nov. 20 they were 6,503,230 shares; on Nov. 21 6,014,855 shares; on Nov. 22 5,837,600 shares and on Friday, Nov. 23, fell only a little short of reaching the 7,000,000 share mark, totaling 6,954,020 shares and shattering anew all previous records for a day's trading. After that there was a moderate slacken-

ing of activity, but only for a very brief period. On Saturday, Nov. 24, as already stated, the Stock Exchange was closed. On Monday, Nov. 26, the sales were 5,326,750 shares and on Tuesday, Nov. 27, 5,278,370 shares but on Wednesday, Nov. 28, they again bounded up to 6,366,690 shares, while on Friday, Nov. 30 (after the Thanksgiving Day holiday), they were 6,414,600 shares. For the full month, notwithstanding the close of the Exchange on one Saturday and the fact that the month contained two holidays (Election Day and Thanksgiving Day), the sales for the first time in any month exceeded 100,000,000 shares, aggregating actually 115,360,075 shares.

The ticker all the time kept running far behind until on Thursday, Nov. 22, the Exchange authorities took drastic measures to provide a remedy, or rather a partial remedy. Naturally, with the transactions constantly growing in volume, the performance of the ticker became worse and worse. On Saturday, Nov. 10, it was at one time 45 minutes behind; on Monday, Nov. 12, at one time, as much as 62 minutes behind; on Nov. 13, 20 minutes; on Nov. 14, 49 minutes; on Nov. 15, only 20 minutes, but on Friday, Nov. 16, when transactions expanded so hugely, it was 73 minutes in arrears. On Saturday, Nov. 17, the arrearage at one time was 46 minutes; on Monday, Nov. 19, it was at one time 51 minutes; on Tuesday, Nov. 20, as much as 105 minutes; on Wednesday, Nov. 21, 66 minutes. It was then that the Exchange authorities had resort to the exceptional measure already referred to. On Thursday, Nov. 22, the Exchange in reporting sales on the ticker began to omit the volume of sales on individual transactions—that is, the ticker no longer showed whether the sale at the given price covered 100 shares, or 500 shares, or 10,000 shares, or 25,000 shares, or whatever the amount might be. This worked well and on the first day of trial the ticker never fell more than 15 minutes behind. On Friday, Nov. 23, when, as already stated, the sales closely approached 7,000,000 shares, the ticker did not give quite so good an account of itself, it being at one time 48 minutes late. Still, the new method was a great improvement on the old method, and the rest of the month the ticker was never behind to the same extent as before; on Friday, Nov. 30, when the sales were 6,414,600 shares, the extreme delay was 38 minutes. It should be added that, though the ticker, beginning with Nov. 22 omitted the volume of the individual sales, the Stock Exchange authorities undertook to make good the omission by furnishing records of the sales of each stock at intervals during the day, and at the end of the day favored the newspapers with complete compilations showing the volume of the sales for each stock, active and inactive, for the day. The Fitch sheets, too, which have for years been printing complete detailed records of the sales, showing each sale in every stock with the amount sold, also continued publishing the records in the old way, getting their data through messengers running back and forth from the Exchange instead of from the ticker tape.

On the Curb Exchange, also, all previous records for volume of business were left far behind, the sales for the month reaching an aggregate of 36,695,100 shares, which compares with 25,455,216 shares for October, itself a new high record up to that time, the next largest total having been that of the previous May, when the sales footed up 24,246,931 shares. In the daily transactions, a new high total for the year (up to that time) was recorded on Nov. 21 when the sales reached 2,134,100 shares. But as showing the accelerated pace at which the market moved, this new high record was surpassed the very next week by nearly a million shares, the sales on Nov. 28 reaching for the first time on any day the 3,000,000 share mark, actually footing up 3,034,400 shares, though on Friday, Nov. 30, they were lower again but still large at 2,373,600 shares. It is worth noting that on November 28 with the Curb sales 3,034,400 shares and the sales on the Stock Exchange 6,366,690 shares, the total of dealings on the two Exchanges combined did not fall much short of ten million shares, the actual total for the day being 9,401,090 shares.

The further rise in Stock Exchange seats during this month was a no less noteworthy feature than the sky rocket performances on the Stock Exchange itself. At the beginning of the month a Stock Exchange membership sold at $460,000, a decline of $15,000 from the previous record price of $475,000. After the election, the price of memberships mounted with great rapidity, as one sale after another was announced, and on Nov. 30 a membership was disposed of at $580,000. The experience in the case of seats on the New York Curb market was not much different, the price of memberships rising during the month from $125,000 to $170,000. The record with memberships at the Cotton Exchange, the Produce Exchange and in fact with nearly all Exchanges, was closely similar, though to be sure the rise was not of any such sensational magnitude as in the case of seats on the Stock Exchange and the Curb Exchange, but in any event new high records were established in every instance. At the outside Stock Exchanges, such as Chicago, San Francisco, Los Angeles, &c., &c., the reports were the same, all telling of new high records having been attained in the price of memberships.

In furnishing illustrations of the magnitude and extent of the further rise in prices on the New York Stock Exchange, it is difficult to know where to begin and where to end, so numerous are the different instances—many of them perfectly amazing. Radio Corporation of America has perhaps had the most distinctive record in that respect. This stock has never paid a dividend. The price shot up from 226 Nov. 5 to 400 Nov. 28 and closed Nov. 30 at 382½; the previous Feb. 20 it sold at 85¼. Montgomery Ward & Co. rose from 338 Nov. 1 to 439⅞ Nov. 30; Sears Roebuck & Co. from 152⅛ Nov. 1 to 197½ Nov. 14 with the close Nov. 30 194⅜; Wright Aeronautic jumped from 161 Nov. 1 to 289 Nov. 23 with the close Nov. 30 at 263; this stock had sold the previous Feb. 27 at 69. Midland Steel Product bounded from 225 Nov. 1 to 295 Nov. 26; International Nickel from 186¾ Nov. 8 to 227¼ Nov. 28, with the close Nov. 30 210½; this stock had sold Feb. 24 at 73⅝. International Harvester ran up from 313 Nov. 1 to 394¾ Nov. 20, with the close Nov. 30 at 372½; Greene Cananea Copper from 134 Nov. 5 to 173 Nov. 20, with the close Nov. 30 at 161; General Electric from 166¼ Nov. 2 to 202 Nov. 30; Federal Mining & Smelting from 156 Nov. 1 to 220 Nov. 30; E. I. du Pont de Nemours from 430 Nov. 1 to 503 Nov. 20 with the close Nov. 30 at 492; Curtiss Aeroplane & Motor from 124 Nov. 3 to 164½ Nov. 23 with the close Nov. 30 at 152. Commercial Solvent B from 212 Nov. 2 to 250¼ Nov. 23, with the close Nov. 30 238¾; Case Threshing Machine from 395 Nov. 5 to 515 Nov. 23, with the close Nov. 30 at 475; this stock on Feb. 21 sold at 247; Burroughs Adding Machine from 172 Nov. 19 to 200 Nov. 30; Allied Chemical & Dye from 224¾ Nov. 1 to 252¾ Nov. 27, with the close at 241¾. Many inactive stocks were especially prominent, in that respect, advancing very swiftly on limited sales. Adams Express shot up from 337 Nov. 3 to 393 Nov. 30; the stock on Jan. 4 had sold at 195; American Express jumped from 253 Nov. 3 to 309 Nov. 30 after having sold the previous January at 169; Brooklyn Union Gas mounted from 158 Nov. 1 to 203¾ Nov. 30; Brooklyn Edison from 285 Nov. 16 to 325 Nov. 28; Consolidated Gas of New York from 78⅛ Nov. 1 to 113 Nov. 30; Johns-Manville from 161¾ Nov. 9 to 194¾ Nov. 20; National Biscuit from 167 Nov. 2 to 195¼ Nov. 27; People's Gaslight & Coke from 184 Nov. 5 to 217 Nov. 28; Rossia Insurance from 209 Nov. 5 to 278 Nov. 30; Western Union Telegraph from 184 Nov. 2 to 200 Nov. 12.

As a group, the copper stocks may be said to have made larger and more general advances than any other. The strong statistical position of the copper trade with the high price of the metal was the ostensible reason for this. Many of the copper companies raised their dividends during the month or made extra declarations. Reference has already been made to the upward spurt in Greene Cananea. Anaconda Copper rose from 88 Nov. 5 to 116½ Nov. 30; Kennecott Copper from 122½ Nov. 3 to 150¾ Nov. 28; Calumet & Arizona from 114¼ Nov. 3 to 133 Nov. 20, closing at 122⅛ Nov. 30; Andes Copper from 36⅛ Nov. 5 to 56 Nov. 26, with the close Nov. 30 at 51; Inspiration Copper from 29⅞ Nov. 1 to 48⅞ Nov. 23, with the close at 46¼; Chile Copper from 58⅝ Nov. 5 to 74⅞ Nov. 20; Granby Cons. from 77 Nov. 3 to 85½ Nov. 20; American Smelting & Rfg. from 264 Nov. 3 to 285 Nov. 12; and U. S. Smelting Ref. & Min. from 56½ Nov. 3 to 71½ Nov. 27. The motor stocks were also higher, though General Motors was often a laggard and actually shows a net decline for the month; after rising from 219¾ Nov. 1 to 224¾ Nov. 7, the stock declined to 204⅝ Nov. 22 and closed at 211½; Packard Motor jumped from 92½ Nov. 1 to 145 Nov. 30; Chrysler rose from 121¾ Nov. 1 to 135¾ Nov. 12 and closed Nov. 30 at 129⅛; Studebaker, after advancing from 75⅝ Nov. 1 to 78⅝ Nov. 7, dropped to 74⅝ Nov. 15 and closed Nov. 30 at 76¾; Nash Motors, however, shot up from 90⅛ Nov. 1 to 112 Nov. 28 and closed Nov. 30 at 110; Hudson was down to 80¼ Nov. 14 against 83⅛ at the opening on Nov. 1, but then rose to 87¾ Nov. 30; Hupp (on reports of merger with Chandler-Cleveland) rose from 70½ Nov. 13 to 84 Nov. 30; Chandler-Cleveland moved from 16½ Nov. 2 to 24 Nov. 23 with the close Nov. 30 at 21⅜. The rubber stocks developed new life and also moved higher. B. F. Goodrich advanced from 78 Nov. 9 to 89 Nov. 27; Goodyear Tire & Rubber from 74⅝ Nov. 9 to 107 Nov. 27; and U. S. Rubber from 37½ Nov. 9 to 43⅝ Nov. 27 and the preferred from 66½ Nov. 19 to 72⅜ Nov. 27.

The oil stocks did not fail to participate in the general advance and yet the tendency was not uniformly upwards. Some of the oil companies, like Phillips Petroleum, declared extra dividends; the stock rose from 44 Nov. 1 to 53⅞ Nov. 20 and closed Nov. 30 at 50⅞; Atlantic Refining (new), after rising from 56¼ Nov. 1 to 60 Nov. 7, dropped to 50 Nov. 30; Sinclair Oil rose from 37½ Nov. 1 to 46¾ Nov. 14, and closed Nov. 30 at 45½; Texas Corporation advanced from 67¼ Nov. 1 to 74¾ Nov. 16, but closed Nov. 30 at 68¾; Marland Oil advanced from 42⅛ Nov. 1 to 49¾ Nov. 23, closing Nov. 30 at 46⅞; Richfield Oil moved up from 46⅞ Nov. 1 to 56 Nov. 13, and closed Nov. 30 at 51¼; Pure Oil advanced from 26½ Nov. 1 to 31¼ Nov. 21, with the close Nov. 30 at 28⅞; Standard Oil of New Jersey jumped from 47 Nov. 1 to 59¾ Nov. 30, and Standard Oil of New York from 35⅛ Nov. 1 to 41½ Nov. 30. The steel stocks played their part in the speculative excitement, though U. S. Steel often showed a reactionary tendency; this stock, after rising from 160⅛ Nov. 3 to 172½ Nov. 16, closed Nov. 30 at 167⅜; Bethlehem Steel on the other hand was a strong feature throughout, rising from 66 Nov. 1 to 85⅛ Nov. 26, with the close Nov. 30 at 80⅛; Republic Iron & Steel was prominent in the same way, rising from 76⅛ Nov. 3 to 94½ Nov. 20 with the close Nov. 30 at 84¼; Inland Steel, after declining from 71¼ Nov. 1 to 70 Nov. 2, rose to 76 Nov. 12 with the close Nov. 30 at 73¾; Ludlum Steel rose from 81 Nov. 2 to 89⅞ Nov. 28, with the close Nov. 30 at 88½.

In contrast with previous experience, many of the railroad stocks were also taken in hand and sharply advanced. The returns of earnings of the different roads for the month of October, as they came in, made such uniformly good comparisons with the corresponding month of the previous year, that the railroad list began to attract considerable speculative interest. New York Central jumped from 172 Nov. 1 to 196½ Nov. 30; Canadian Pacific from 218 Nov. 3 to 253 Nov. 26, with the close Nov. 30 at 244; Erie from 55½ Nov. 3 to 72⅜ Nov. 27, with the close Nov. 30 at 68¾; Atchison from 189½ Nov. 1 to 204 Nov. 16, with the close Nov. 30 at 201⅛; Atlantic Coast Line from 163½ Nov. 1 to 173 Nov. 16, with the close Nov. 30 at 171; Baltimore & Ohio from 110¾ Nov. 1 to 119¾ Nov. 30; Chesapeake & Ohio from 187 Nov. 5 to 209½ Nov. 26, with the close Nov. 30 at 205; Mil. & St. Paul pref. from 48¾ Nov. 5 to 59⅝ Nov. 27, with the close Nov. 30 at 57¼; Chicago & North West from 86 Nov. 1 to 94 Nov. 28, with the close Nov. 30 at 93; Rock Island from 130 Nov. 1 to 139⅝ Nov. 28, with the close Nov. 30 at 136⅞; Delaware & Hudson from 186¼ Nov. 7 to 198½ Nov. 12, with the close at 191; Great Northern from 100⅛ Nov. 2 to 114¾ Nov. 20, with the close Nov. 30 at 111½; Northern Pacific from 99¼ Nov. 5 to 118 Nov. 20, with the close Nov. 30 at 111½; Kansas City Southern from 67⅜ Nov. 1 to 95 Nov. 26, with the close Nov. 30 at 93; Louisville & Nashville from 139⅜ Nov. 2 to 150½ Nov. 16, with the close Nov. 30 at 145¼; Missouri-Kansas-Texas from 43⅞ Nov. 1 to 56⅞ Nov. 30; Missouri Pacific from 67⅛ Nov. 1 to 74½ Nov. 27 with the close Nov. 30 at 72¾; New Haven from 65¼ Nov. 1 to 80¼ Nov. 27, with the close Nov. 30 at 77¼; Pennsylvania Railroad from 63⅞ Nov. 5 to 73¾ Nov. 30; Southern Pacific from 121⅜ Nov. 5 to 130 Nov. 27, with the close Nov. 30 at 127; Union Pacific from 202¼ Nov. 1 to 224⅞ Nov. 12, with the close Nov. 30 at 215⅞, and Wabash from 76¾ Nov. 8 to 84 Nov. 27, with the close Nov. 30 at 81.

THE MONEY MARKET DURING NOVEMBER 1928.

There was no abatement of the monetary tension during November and, indeed, anything of the kind was out of the question with Stock Exchange speculation continuing to absorb bank credit in constantly increasing amounts. In the call loan division there was a slight easing off after the early days of the month from the extreme figures reached towards the closs of October, but rates nevertheless continued high week after week and in the closing days of the month the customary month-end demand and preparations for the 1st of December interest and dividend disbursements caused rates to mount very rapidly to the highest level of the year for call loans, or rather to the same high figures as were recorded at the beginning of July and again at the beginning of October. At no time during the month did the call loan rate on the Stock Exchange rule lower than 6%, though in the early part of the month reports had it that some money had on one or two occasions overflowed into the outside market after Stock Exchange demands for the day had been satisfied and been placed there at 5½%. On the Stock Exchange the call loan rate on Nov. 1 was 7½%, all loans being negotiated at that figure, and on Friday, Nov. 2, the rate ranged down from 7½% to 7%. The following Monday, Nov. 5, the range was 6@7%, while on Nov. 7, the day after election, when the Stock Exchange was closed, all loaning on the Exchange was at the uniform figure of 6%. By the following Friday, Nov. 9, the rate was back to 7%. On Monday, Nov. 12, the range was 6@6½% and on Nov. 13 and 14 all transactions were at the single figure of 6%. On Nov. 15 the range was 6@6½%. Beginning with Nov. 16, which was Friday, and continuing up to and including Nov. 23, which also was Friday, the rate remained unchanged at 6½%. On Monday, Nov. 26, the range was 6½@7½%; on Nov. 27, it was 7@9%; on Nov. 28, the only figure was 8%, while on Nov. 30, following the Thanksgiving holiday, after renewals had been effected at 8%, there was later in the day an advance to 10%, a figure recorded only twice before during 1928, namely, on Oct. 1 and July 2.

The renewal rate was 7½% Nov. 1, then 7% until Nov. 7 and 8, when it was 6%, followed by a rise to 6½% Friday, Nov. 9 and 6½% again the following Monday, Nov. 12.

Then for three days the quotation was 6%. On Nov. 16 the rate was again marked up to 6½% and so remained until Nov. 27, when it was raised to 7% and further advanced to 8% on Nov. 28, and continued at that figure on Nov. 30, after the Thanksgiving holiday on Nov. 29. The time loan rate varied very little during the month. There was virtually no deviation of consequence from the range of 6¾@7% for all dates of maturities from 30 days to 6 months. Occasionally the rate for the shorter maturities was quoted at the single figure of 7% and early in the month the range for 6 months at one time was 6½@6¾%. On the last two business days of the month, when the spurt in the call loan rate occurred, the single quotation of 7% prevailed for all dates of maturity except loans for 5 and 6 months where the range of 6¾@7% was continued. For commercial paper the range for names of choice character maturing in 4 to 6 months may be said to have ruled throughout the whole month at 5¼@5½%, with the bulk of the business being transacted at the higher figure and a few exceptional names moving in spots at the lower figure. For names less well-known the quotation early in the month continued at 5½@5¾%, but the latter part of the month advanced to 5¾@6%. New England mill paper ruled throughout at 5½@5¾%.

Rates for banks and bankers acceptances remained unaltered during November and the posted schedule of the American Acceptance Council for prime bankers' acceptances eligible for purchase by the Federal Reserve banks continued throughout at 4⅝% bid and 4½% asked for bills running 30 days and also for bills running 60 and 90 days; 4¾% bid and 4⅝% asked for 120 days and 4⅞% bid and 4¾% asked for 150 and 180 days. Several changes, however, occurred in the call loan rate against bankers' acceptances. On Nov. 1 the Acceptance Council advanced its posted rate for call loans against acceptances from 5½ to 6%; on Nov. 5 the rate was reduced to 5%. This figure remained unchanged to Nov. 16, when the rate was raised to 5½%. No further change was made until Nov. 28, when the Council raised its call loan rate to 6½%, followed by a further rise to 7% on Nov. 30.

The rediscount rates of the Federal Reserve banks continued the same as before, the Federal Reserve Banks at Minneapolis, at Kansas City, at Dallas and at San Francisco continuing to charge 4½% for all classes of paper and the eight other Reserve banks retaining the 5% rate.

THE RETURNS OF THE FEDERAL RESERVE AND MEMBER BANKS—BROKERS LOANS.

Brokers' loans on Stock Exchange collateral continued to mount still higher during November notwithstanding the prodigious magnitude to which they had previously attained. Not only that, but expansion now was at an accelerated pace. The fresh additions week by week became perfectly startling. After having risen uninterruptedly for 10 successive weeks during August, September and October, the statement of the Federal Reserve Bank of New York for the reporting member banks at New York City on Nov. 7 showed a further increase of $71,804,000, the return for Nov. 14 still another increase, even though small, of $1,849,000, then a new addition on Nov. 21 in the huge sum of $176,315,000, capped by still another prodigious increase on Nov. 28 in amount of $132,768,000, making the expansion for the four weeks $382,736,000. This gave a record of fourteen consecutive weeks of increases during which the total of the loans to brokers and dealers (secured by stocks and bonds) by the 44 reporting member banks in New York City ran up from $4,201,131,000 on Aug. 22 to $5,289,900,000 on Nov. 28, making the further expansion during this period of fourteen weeks considerably in excess of a thousand million dollars from a figure itself of startling proportions, the exact amount of the addition for the fourteen weeks being $1,088,769,000. In the week ending Nov. 21, it should be noted, the Federal Reserve total for the first time reached and went above the five billion dollar mark, it going to $5,157,132,000, and in the week ending Nov. 28 it went still higher to $5,289,900,000.

Disregarding the changes from week to week, heavy increases occurred during the month in each of the three categories into which the loans are divided by the Federal Reserve, the loans made by these reporting member banks in New York City for their own account rising from $1,020,710,000 Oct. 31 to $1,234,660,000 Nov. 28; the loans made for account of out-of-town banks from $1,732,177,000 to $1,768,236,000 and the loans "for account of others," meaning large corporations and large capitalists with immense amounts of available cash, concerning which there has been so much discussion in the public prints, rising from $2,154,277,000 to $2,287,004,000. With the loans for the out-of-town banks in excess of 1¾ billion dollars and the loans for account of others in excess of 2¼ billion dollars, this made the total of the loans under these two heads well over four billion dollars—in precise amount, $4,055,240,000.

The monthly figures relative to these brokers loans compiled by the New York Stock Exchange itself furnish an even more startling revelation of the tremendous expansion in this kind of borrowing. As many times pointed out in these columns, the Stock Exchange figures always run much higher than the Federal Reserve figures, being much more comprehensive. The Stock Exchange total, it is well enough to remember, always covers the even month, whereas the Federal Reserve figures are invariably for the week ending Wednesday night. Hence in instituting comparisons between the two it is possible only to combine a definite number of weeks with the 30 or 31 days covered by the Stock Exchange tabulation. In the present instance, there is no occasion for making any comparison between the two sets of figures. Each is impressive enough in its own way. The Stock Exchange tabulation shows a further expansion in these loans during November of no less than $511,923,202, following $366,081,377 increase in October, $462,202,280 in September, and $214,089,826 in August, making the combined expansion for the four months of over 1½ billion dollars—in exact amount $1,554,296,685. In the preceding paragraph it was noted that the Federal Reserve total under the further increase during November had risen to well above $5,000,000,000. But the Stock Exchange total has reached an amount far in excess of $6,000,000,000. In other words, the Stock Exchange statement tells us that "Total net loans by New York Stock Exchange members on collateral, contracted for and carried in New York, as of the close of business Nov. 30 1928, aggregated $6,391,644,264." On Oct. 31, the corresponding total was $5,879,721,062; on Sept. 30 it was $5,513,639,685; on Aug. 31 $5,051,437,405, and on July 31 only $4,837,347,579, giving the $1,554,296,685 increase for the four months already mentioned. It is well enough to point out that on Nov. 30 1927 when these Stock Exchange loans were already of gigantic proportions, the total had only just passed the four billion dollar mark for the first time and was $4,091,836,303. The rise from this latter figure to the present amount of $6,391,644,264, it should not escape attention, marks a further expansion in this period of 12 months of over 55%.

Member bank borrowing at the Federal Reserve institutions also again increased during November. In the middle of the month such borrowing was heavily reduced, but

the last week it was again extended and on a heavily increased scale. This appears from the fact that the discount holdings of the 12 Reserve institutions, after rising from $932,271,000 Oct. 31 to $957,390,000 Nov. 7, fell to $799,946,000 Nov. 21 and then at one bound (in part it was claimed because of the holiday demand for cash on the eve of Thanksgiving) rose to $990,240,000 Nov. 28. The Federal Reserve banks at the same time kept adding to their holdings of acceptances purchased in the open market; the total of these acceptances rose from $440,376,000 Oct. 31 to $484,164,000 Nov. 21 and $482,343,000 Nov. 28. Holdings of Government securities were also enlarged somewhat during the month, the amount Nov. 28 after some variation from week to week, standing at $229,282,000 against $227,099,000 Oct. 31. Altogether, the total of the bill and security holdings on Nov. 28 was $1,706,255,000 against $1,603,476,000 Oct. 31, showing an increase of $102,779,000 in the amount of Reserve credit in use. The total of Federal Reserve notes in circulation increased heavily the last week of the month and the amount Nov. 28 stood at $1,765,585,000 against $1,709,816,000 Oct. 31. Gold reserves were reported at $2,600,471,000 Nov. 28 against $2,641,096,000 Oct. 31. The loss occurred entirely in the last week of the month, there having been an increase during each of the preceding three weeks, with the result that the amount Nov. 21 was $2,667,467,000 against $2,641,096,000 Oct. 31. The loss followed presumably because of heavy exports of gold to Canada and further earmarkings of gold—$22,000,000 of the metal having been shipped to Canada the latter part of November, and $11,987,000 gold having been set aside and earmarked for foreign account in the week ended Nov. 28 in addition to $13,015,000 earmarked the previous week.

As purchases of acceptances and other open market purchases represent Reserve credit voluntarily put in use by the Federal Reserve authorities, it deserves to be recorded here that the total of the acceptance holdings of the 12 Reserve institutions at $482,343,000 Nov. 28 compares with only $161,847,000 on Aug. 8, showing an increase of $320,496,000 in the amount of Reserve credit thus put voluntarily at the disposal of the community at a time when speculation in the stock market has been rampant. Of this increase, $110,916,000 occurred at New York, the speculative center, the acceptance holdings of the Federal Reserve Bank of New York at $143,086,000 Nov. 28 comparing with $32,170,000 Aug. 8. Holdings of U. S. Government securities have also been added to during the same period, the 12 Reserve institutions reporting $229,282,000 of such securities Nov. 28, against $207,868,000 Aug. 8, an increase of $21,414,000, and making with the $320,496,000 increase in acceptances a total of $341,910,000 of Reserve credit thus thrust into use by the Reserve authorities. At the Federal Reserve Bank of New York by itself the holdings of Government securities increased from $28,501,000 Aug. 8 to $44,532,000 Nov. 28, an addition of $16,031,000, which, with the $110,916,000 increase in the aceptance holdings at the same point makes a total addition of $126,947,000 to the Reserve credit put in use at this center.

COURSE OF STERLING EXCHANGE DURING NOVEMBER.

Firmness developed in sterling exchange the last half of November, accompanied by a rise in rates sufficient to preclude further engagements of gold at London for shipment to the United States, at least for the time being. The exchanges on most of the other European countries also became somewhat firmer, very likely in sympathy with the improvement in the sterling rate. Underlying conditions appear to have remained unchanged. The chief factors against sterling were the same as before, namely, seasonal pressure resulting from the accumulation of import bills for cotton, grain and other produce from the United States and from Canada as well as from South America; also the high money rates ruling at this center. Most important of all perhaps were large purchases of stocks here for foreign account, Europe having been a heavy buyer of securities in this market all along and having greatly increased its purchases after the election, the craze for stock speculation having gained a foothold abroad the same as in this country. As a result of these influences, cable transfers on London dropped from $4.84 31/32 on Nov. 1 to $4.84 11/16 on Nov. 14, the latter marking a new low for the year. As a consequence further large engagements of gold were made in London for export to this country. Among those announced as having engaged large amounts of the metal were Heidelbach-Ickelheimer & Co., the Equitable Trust Co., Brown Bros. & Co., the American-Exchange Irving Trust Co. and the National Park Bank. After the middle of the month, however, the sterling rate rapidly advanced, with the result that as against 4.84 11/16 on Nov. 14, cable rates on London Nov. 27 were quoted at as high as $4.85 5/16; some reaction followed, and on Nov. 30 the range was 4.85⅛@$4.85 3/16. With this rise in bills on London it no longer was profitable to import gold and the import movement ceased. What caused the reversal of the trend of exchange on London is not known, but it is supposed that the Bank of England came to the support of sterling with the view to preventing any further large takings of gold for either the United States or for Germany.

The last half of the month not only did gold importations cease but considerable amounts of the metal were shipped from New York to Canada. The monthly review, dated Dec. 1, of the Federal Reserve Bank of New York, says a total of about $27,000,000 of gold was received here during the first 21 days of November, bringing the total receipts since the import movement began in September to $42,000,000, of which amount $37,500,000 came from England and $4,500,000 from Argentina. The latter part of the month the foreign exchanges were above the levels at which gold shipments to this country would yield a profit and consequently no further shipments of any size to the United States were reported after the 15th of the month. A reversal of the gold current, it is also pointed out, occurred after Nov. 21, when the first gold exports of the season to Canada were made and when a substantial amount of gold was earmarked for foreign account, these earmarkings having reached about $25,000,000. These new movements took a total, it is stated, of about $47,000,000 from the gold stock of the country and more than offset the gold import movement earlier in the month.

The event of the month in Great Britain was the definite amalgamation of the British currency note issues with the Bank of England notes. That this was to be done had been announced by the Chancellor of the Exchequer when he made his budget speech the previous April. Only the date of the amalgamation remained undetermined. Nov. 22 was finally fixed as the date. The first Bank of England statement in the new form was that issued on Nov. 28 for the week ended that day. The principal change was the increase in the note circulation resulting from the taking over of the currency note issues. The statement showed an increase of £234,199,000 in the note circulation as a result of the amalgamation. The total outstanding currency notes at the time of the amalgamation was £286,750,000, but £56,-

250,000 of Bank of England notes were pledged as reserve against the currency notes, and that part of the Bank of England's own circulation was automaticially cancelled when fusion took place. The old currency notes were not redeemable in gold at the Bank and were open to the further objection that they were issued by a Government department instead of being under the control of the Bank of England. The new bank notes are legal tender for payment of any amount and the Bank of England may issue notes not only to the full equivalent of the gold coin and bullion held in its issue department, but in addition—and that constitutes the change—may emit notes to an aggregate of £260,000,000 in excess of the gold holdings. The excess is known as the fiduciary issue and may not without Government sanction exceed £260,000,000. The Bank of England gold holdings were further heavily reduced during the month, notwithstanding that the outflow of the metal to New York was to a considerable measure offset by large gold receipts from Spain. The weekly statement of the Bank for Nov. 7 showed a slight increase in the gold holdings, namely, £68,706, but the return for Nov. 14 reported a loss of £2,532,310, that for Nov. 21 a loss of £382,484, and that for Nov. 28 (the first after amalgamation) a further loss of £2,238,603.

THE CONTINENTAL AND OTHER FOREIGN EXCHANGES

The exchanges on the Continental centers of Europe were devoid of special features. They had this in common with the course of sterling exchange, that as a rule they developed firmness the last half of the month. The French franc was wholly unaffected by the French Cabinet crisis, and indeed, Premier Poincare after his resignation was asked to form a new cabinet and thus succeeded himself with a cabinet reconstructed by the omission of the element which had led to the collapse of the old cabinet, that is, the radical-socialist element. In his new cabinet, M. Poincare does not hold the post of Minister of Finance held by him in the old cabinet and thus gains the distinction of being the first Premier of France without a portfolio, he holding no office except that of President of the Council. Senator Henri Cheron was given the position of Minister of Finance and appears to command the general confidence. No change of consequence occurred in the rates of exchange on Paris, the Bank of France holding complete control and keeping the rate at such figure as would prevent what was mainly feared, namely, an outflow of gold to either New York or Germany. Checks on Paris were quoted at 3.90⅜@3.90½c. Nov. 1 and 3.90 11/16@3.90 13/16 Nov. 30. The Bank of France continued to show accessions to its gold holdings in its weekly returns, with the exception that the statement for Nov. 3 disclosed a decrease of 13,914,011 fr. This was followed by an increase of 58,342,545 fr. Nov. 10, 21,700,536 frs. Nov. 17, by no less than 361,983,918 fr. Nov. 24 and by 386,000,000 fr. for the week ended Dec. 1. The Bank's credit balances abroad showed a decrease Nov. 3 of 82,879,231 fr. an increase of 4,617,559 fr. Nov. 10, a decrease of 14,367,036 fr. Nov. 17, a decrease of no less than 281,077,574 fr. Nov. 24 with 223,000,000 fr. decrease in the week ending Dec. 1. Note circulation was reported as showing an increase of 1,432,000,000 fr. on Nov. 3, followed by a decrease of 804,000,000 fr. Nov. 10, of 545,000,000 fr. Nov. 17, of 412,000,000 fr. Nov. 24, with 1,661,000,000 fr. increase Dec. 1.

German marks were in demand for a number of different reasons—principally the transfer of funds from New York and other centers for participation in the Berlin money market and for investment in German securities. Germany continued to draw gold from London. As against 23.79⅞@23.82 Nov. 1, checks on Berlin Nov. 30 were 23.82 @23.84. The Bank of Germany reported 7,108,000 marks increase in gold the first week of November, 23,622,000 marks the second week, 9,935,000 marks the third week and 50,014,000 marks the fourth week. The note circulation of the Bank followed the usual course with 261,681,000 marks, 237,594,000 marks and 129,473,000 marks decreases, respectively, in the first, second and third weeks of the

month but with the customary large increase—this time 680,759,000 marks—in the final week of the month. The Italian lira varied scarcely at all during the month, checks on Rome being quoted identically the same on Nov. 1 and Nov. 30, or 5.23½@5.23¾. Lire continued in demand, owing to the flow of funds from this side for investment in Italian enterprises and because of immigrant remittances. Great activity and higher prices prevailed on the Italian Stock Exchanges and a wave of optimistic sentiment was everywhere in evidence. The Polish zloty the greater part of the month continued unchanged at 11.19. The Bank of Finland on Nov. 17 raised its rate of discount from 6½ to 7%, but the Finnish markka did not deviate from 2.51½. Nor was there any change of consequence in the rate of exchange on Bulgaria, notwithstanding that cable advices from Sofia on Nov. 30 stated that the National Bank of Bulgaria would reduce its discount rate on Dec. 15, from 10% to 9%, restoring it again to 10% on Jan. 1. The Greek drachmae did not deviate from 1.29@1.29½ throughout the month.

The exchanges on the countries neutral during the war were without special feature, though all showed an upward trend. Checks on Amsterdam were 40.14@40.16 Nov. 30 against 40.07½@40.09 Nov. 1; checks on Switzerland 19.25¾@19.26¾ against 19.23½@19.24¼; checks on Denmark 26.66 against 26.65@26.65½; checks on Sweden 26.71½@26.72 against the same figure Nov. 1, and checks on Norway 26.65½@26.66 against 26.64½. The Spanish foreign exchange control committee seemed at last to gain the upper hand and the peseta attained a position of considerable stability, checks on Madrid being quoted at 16.11½ @16.12 Nov. 30 as against 16.11@16.15 Nov. 1. The Spanish government gave out a statement saying that the official control board had not been constituted to peg exchange, but to reduce fluctuations which had been accomplished. The statement concluded with the announcement that the Government had instructed the Minister of Finance to mobilize available gold to counteract depreciating tendencies. Advices from Madrid by way of London stated that the Spanish Government was considering an early return to the gold standard. The rate of probable stabilization was not disclosed. There was considerable activity during the month in peseta futures at a substantial premium over the spot rate. The buying of futures was ascribed to speculators who were extending their position in the belief that there would be an early return to the gold basis.

There were no developments of moment in the South American exchanges. Fluctuations in rates were unimportant. Checks on Argentina varied scarcely at all, being quoted 42.10@42⅛ Nov. 30 as against 42.10@42.19 Nov. 1. The rate on Brazil was 2 points lower, being 11.90@11.92 Nov. 30 in comparison with 11.92@11.94 Nov. 1. The Peruvian libre was quoted throughout at 3.99 and the Chilean peso was 12 1/16 Nov. 30 the same as on Nov. 1.

The Far Eastern exchanges moved within a narrow range, except in the case of the Japanese yen, which showed a marked downward trend, checks on Yokohama on Nov. 30 ranging at 45.65@45.85 against 46.50@46.80 Nov. 1. The Japanese Finance Minister in an address on Nov. 13 stated that the Government was giving serious consideration to varying opinions expressed by many leading financial organizations as to the desirability of removing the embargo on gold exports. He added that the Government was not neglecting the necessary steps toward the settlement of the question and was trying to ascertain the proper time for such action. The exchanges on the silver using countries of the East were mostly a trifle lower, probably because of a slight downward tendency in the price of silver. The tael on Shanghai was 63 15/16 Nov. 30 against 63 15/16 @64 Nov. 1. The dollar on Hong Kong was 50.00 against 50.00@50.05. Rupees on Bombay were 36.40@36.48 Nov. 30 against 36.45@36.50 Nov. 1. The Imperial Bank of India on Nov. 15 raised its rate of discount from 5%, the figure which had been in effect since July 18 to 6%. The price of silver in London after fluctuating more or less from day to day was 26 9/16d. per ounce on Nov. 30 against 26¾d. Oct. 31.

The tables on pages 13 to 34 furnish a complete record of the transactions on the New York Stock Exchange during November and since Jan. 1 1928. They need no extended introduction, as they are self-explanatory. The tables embrace every security dealt in on the Exchange. We give bonds first, using the classification adopted in the official list. The black-faced letters in the column headed "*Interest Period*" indicate in each case the month when the bonds mature.

In accordance with the rule adopted by the New York Stock Exchange in 1909, all quotations for interest-paying bonds are at a price to which accrued interest must be added. The exceptions to the rule are income bonds and bonds on which interest is in default. A few other bonds, like the Holland-American Line 6s, for special reasons, are also quoted "flat," but where this is the case the quotation "*flat*" will be found against the name of the issue. This method of quoting bonds became effective Jan. 2 1909.

For footnotes to tables see last page of bonds and last page of stocks.

General Quotations

OF BONDS AND STOCKS

In the earlier part of this publication complete records of the dealings on the leading stock exchanges o- the country, for the latest month and for the calendar year to date, are furnished. In this department of General Quotations we combine in one comprehensive whole, securities of all classes and descriptions, not only those dealt in on the exchanges but also leading unlisted and inactive securities. The following is an index to the different classes of securities quoted:

	Page		Page		Page
Steam Railroad Bonds	69	Public Utility Bonds	77	Insurance Stocks and Scrip	80, 101
Steam Railroad Stocks	74	Public Utility Stocks	82	Real Estate Trust and Land Stocks	89
Joint Stock Land Bank Bonds	76	Industrial & Miscellaneous Bonds	85	Title Guarantee and Safe Deposit Stocks	89
Joint Stock Land Bank Stocks	76	Industrial & Miscellaneous Stocks	81	United States and Municipal Bonds	85
Federal Land Bank Bonds	93	Exchange Seats	87	Canadian Municipal Bonds	94
Real Estate Bonds	87	Textile Manufacturing Stocks	88	Foreign Government Bonds	94
Investment Trust Stocks and Bonds	75	Mining Stocks	88		

Quotations from all Stock Exchanges are as near as possible for the *closing day of the month preceding the date of issue.* As the New York Stock Exchange began with Jan. 2 1909 to quote all bond prices "and interest," we have adopted the same method and no longer employ a designating mark to indicate the fact except where there is a deviation from this rule. The reader will understand, therefore, that unless the letter "*f*" is prefixed to the price, he must pay accrued interest *in addition* to the price. This, however, does not apply to income bonds or bonds in default, in which cases the price includes the interest, should there be any.

The letter "*f*" prefixed to bond prices denotes that the quotation is a flat price—that is, that the accrued interest forms part of the price, and therefore the purchaser does not have to provide for it separately in making payment. As already stated in the case of income bonds and bonds in default, the price is always "flat," and no designating mark is employed to indicate the fact.

Quotations for guaranteed stocks are "and dividend"; that is, the accrued dividend must be paid in addition to the price. Stock prices marked thus (*d*) are per share. All others are per cent except bank stock prices, which are quoted per share unless otherwise stated.

It should be borne in mind in the use of these tables that the quotations for many inactive and unlisted securities are merely nominal, but in all cases the figures are obtained from sources which are considered reliable.

The following abbreviations are often used, viz.: "M" for mortgage, "g" for gold, "gu" for guaranteed, "end" for endorsed, "cons" for consolidated 'conv" for convertible, "s f" for sinking fund, "l g" for land grant, "op" for optional.

The black-faced type in the letters showing the interest period indicates the *month* when the bonds mature.

NOTICE.—All bond prices are "and interest" except where marked "f" and income and defaulted bonds.

Industrial and Miscellaneous Securities

Under the heading "Industrial and Miscellaneous Securities" we include all issues which *do not* appear under the previous two headings, namely "Railroads (Steam)" and "Public Utilities." In the case of stocks, however, we pu "Textile Manufacturing," "Insurance," "Mining," "Real Estate and Land," "Title Guarantee and Safe Deposit Companies" under separate heads, then follow with the rest of the "Industrial and Miscellaneous."

NOTICE.—All bond prices are "and interest" except where marked "f" and income and defaulted bonds.

United States and Municipal Bonds

In reporting below prices for State and municipal securities, we give bid and asked quotations wherever they can be obtained. The custom, however, is to quote municipal securities on the basis of the return they yield per annum. Therefore in most cases it will be found that instead of actual prices we have inserted in the column headed "To Net" certain figures to indicate the interest rate at which business in the bonds is being done. Thus 4.35% means that the particular security can be bought or sold at a price that will yield the purchaser or seller 4.35% per annum to the maturity of the issue. Where two figures appear, as for instance "4.25% to 4.35%," the rate of return varies according to the maturity—the shorter maturities yielding the lowest rate, and the longer maturities yielding the highest return. Recently however, owing to the tension in the money market, it has happened in not a few instances that the shorter maturities have been yielding the highest rate of return and the longer maturities the lowest rate of return, and where that happens to be the case, the range has been reversed to read, say 4.35% to 4.25%.

In State and municipal bonds the custom has always been to quote them "and interest." That is, the accrued interest must in all cases be added on. There are a very few which form exceptions to the rule—that is, where the prices given are flat prices, the accrued interest having been taken into account in making them. These are indicated by a special mark, thus (f).

STATE AND NATIONAL BANK STATEMENTS

Quotations in this department are given per share, not per cent, except for stocks of Canadian Institutions, and are as near as possible for the *closing day of the month preceding date of issue*, though often are nominal. An asterisk (*) denotes sales.

Figures of deposits, capital and profits for the national banks are from the Comptroller's last call; for all other institutions they are the latest obtainable, direct returns being procured by us where no periodic statements are required. For the Clearing House banks of New York, Philadelphia and Boston, deposits are taken from the latest-weekly statement.
